

How to create an Album and add your video to that Album on an iPad

Step 1: Open “Photos” on the iPad.

Step 2: Select the “Albums” option located at the bottom of the screen.

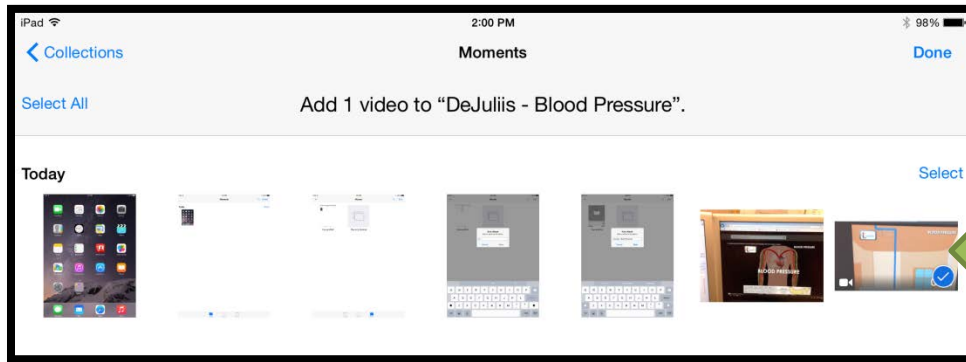

Step 3: Use the “+” option to create a new Album.

Step 4: “Title” the Album using “your last name – video topic”, then select “Save”. Example: DeJuliis – Blood Pressure

Step 5: Add your video to the Album by selecting it from Photos. When selected the video will have a **“blue checkmark”** indicating it has been chosen to be added to the Album.

Step 6: Select the **“Done”** option to complete adding the video to the Album.

Step 7: Select the Album **“your last name – video topic name”** to confirm the video has been added.
